# The Four Questions Bible Reading Plan

As you read through a passage, ask these four questions:

Who is God? *The Bible is God's story, so begin by looking for how God's character and nature are revealed in what you're reading.*

What has God done? *Look for what the text says about the work of God.*

Who am I? *In light of who God is and what God's done, look for what the text says about your identity.*

What do I do? *Because of the truth of who God is, what God's done, and who you are, how does it change the way you live?*
