FLIGHT

MIDDLE MONTHS

Remind your group of
the goal and the
vision.

Name and celebrate
growth in group
members.

Remember you want to
create a predictable
environment.

Plan interruptions to
the normal rhythm of
your group.

Identify potential
leaders.

Start talking about the
end of your group.

LANDING

LAST 90 DAYS

Not talking about
multiplication sets you
up for a bad experience.

Be intentional about
celebrating,
encouraging, and
having fun.

Encourage and
challenge each other to
take next steps.

Create a plan for
multiplication as a
group.

Point out growth when
you see it, and then
celebrate it.

Take time as a group to
remember everything
you've shared.
